

DIVERSIFIED INCOME STRATEGY

PORTFOLIO INFORMATION

The Diversified Income Strategy is a strategic blend of traditional bond funds, high yield funds, commodity and real asset funds, and money markets. Asset classes with low correlations are used to reduce volatility and produce consistent returns. Portfolio adjustments are made in response to changes in interest rates, credit conditions and overall market dynamics.

PORTFOLIO PERFORMANCE

Net Investment Performance

Money Market return based on money market yields published by Wall Street Journal. Intermediate Treasury is index of all intermediate-term US Treasury notes published by Barclays.
